3D Bunny Punks

Welcome to 3D Bunny Punks White Paper.

The 3D Bunny Punks Team builds unique 3D avatars that function as the foundations of a flourishing community.

Executive Summary

What is 3D Bunny Punks?

'3D Bunny Punks' is a collection of 3D realistic avatars anticipated to integrate into multiple metaverse platforms. In addition, 3D Bunny Punks plans on providing holders with a wide array of utilities that benefit holders from across the globe. The utilities are explained below. Mission Statement
'3D Bunny Punks' mission is to use high-quality NFTs in the real world and the Metaverse. Shortly after purchase, you'll be greeted with your unique NFT, allowing you to interact with your NFTs like never before. Measures to ensure the *5555 NFTs* are you to standard and quality, challenging the most successful NFT project in the space.

NFT Overview

3D Bunny Punks consists of three components at its core:

1. *3D rendering*
2. *Metaverse and game integration*
3. *Marketplace*

3D Bunny Punks Minting

The 3D Bunny Punks NFTs can only be minted on our official website in the early stages. After that, 3D Bunny Punks will be available for secondary transactions.

Utility/Benefits

What makes 3D Bunny NFTs unique from others?

We decided to do something outside the box from standard projects, so we came up with something unique and different in our ecosystem for holders. Aside from benefiting from our utilities and secondary market, holding a Bunny NFT gives you an automatic lifetime entry into our raffle pool.

Bunny Raffle Pool: A Lifetime Benefit

1. *15% of every sale in the secondary marketplace goes into the pool won by 50 holders every Sunday.*
[A constant supply of funds to the pool & an endless distribution process for the holders]

2. *15% of MINT INCOME goes into the Raffle Pool initially.*
[As soon as we sell out, we will deposit 15% into the Raffle Pool]

Weekly Raffle Prize Pool details- [50 winners every week]

* 1st will win 30% of the pool (Diamond Prize)

* 2nd will win 20% of the Pool (Gold Prize)
* 3rd will win 10% of the Pool (Silver Prize)
* 47 other Bunnies will win 1% of the pool. (Bronze Prize)
Each holder has a 1/80 chance of winning *EVERY WEEK*, and we will send all prizes directly to your wallet.

"By holding more Bunnies, you increase your chances of winning.
If you decide to sell your Bunny, you'll be helping to fund the pool."

3D Bunny Punks NFT is like a Powerball ticket you only buy once with lifetime entries to our pool!

The weekly raffle is designed to benefit holders, improve sales, attract more investors and sustain the ecosystem for a lifetime.
In summary, more sales from the collection increase the sales volume, creating more demand, and attracting more investors, thereby sourcing more funds to the Raffle Pool.

$BUNNY tokens & staking system

The token will be available after the presale. *$BUNNY* is a utility token with a unique buyback-and-burn mechanism and multiple utilities related to the 3D Bunny Punks NFT collection. *$BUNNY* will be distributed as follows:

75% - Staking & Community Rewards among 3D Bunny Punks NFT holders.
6% - Liquidity. Tokens for the liquidity pool.
8% - Team. 3D Bunny Punks team payments.
5% - DAO. 3D Bunny Punks DAO funds.
1% - Airdrops. Token release airdrops for 3D Bunny Punks holders and project supporters. 5% - Treasury- Locked treasury that could be unlocked by community voting to achieve chosen goals. We will burn all *$BUNNY* used in utilities, and 5% of royalties will be used to buy back and burn *$BUNNY*.

Land in the Metaverse

3D BUNNY PUNKS anticipates acquiring land in the *Metaverse*, creating a virtual member space for holders to hang out together as their unique bunny avatars. Our metaverse space intends to function as the 3D Bunny Punks Headquarters that NFT holders can access. Also, NFT holders can have digital access to important events such as upcoming NFT conferences and enjoy our digital clubhouse, where 3D Bunny Punks can hang out and partake in fun games.
Blockchain gaming with NFTs **Bunny Defender: The Game** [2023] Powered By- Unreal Engine 5 3D Bunny Punks uses blockchain technology to empower holders with actual digital ownership. Each NFT is non-fungible, meaning unique, and no identical copy exists. It is indivisible and is not interchangeable. The time of purchasing video game character skins for single use is over now that 3D Bunny Punks is here. Through blockchain technology, in-game avatars can be tokenized, allowing users to buy, sell, and trade digital items.

Mint Pass

The NFT acts as a mint pass for future drops meaning holders of the 3D Bunny Punks NFT have *early access* to future collections.

Exceptional Rendering Quality & 3D Models

High-quality rendering means that 3D Bunny Punks are equipped to be used in *movies, games, the Metaverse, and even FaceTime*. Holders of the NFT can expect access to their 3D Bunny Punks files, providing them with complete control over their digital property. With this file, you will construct animations of your Bunny.

Giveaways

3D Bunny Punks holders are eligible to participate in regular *giveaways, raffles, quizzes, trivia nights, and fun initiatives* that reward members of the 3D Bunny Punks. Rewards might range from influencer party invitations to free NFTs, crypto, and more.

Comic Book

3D Bunny Punks *Comic Book* by Gabriel Carvajal. [character designer and comic artist] Each episode contains exciting stories.

Moral initiatives

3D bunny punks will be helping,

- *Orphanage homes*. [India, Bangladesh, Nigeria]
- *Planting of trees*. To improve the air quality by planting over 500 trees, rehabilitating and rescuing domestic animals like rabbits etc. and educating people about pet care.

3D BUNNY PUNKS is a community-focused project aiming to protect and care for humans and animals.

ROADMAP

We've learned a lot on this journey so far. 3D Bunny Punks is developing and sharpen itself over time. We have set the roadmap as simply as possible. The Community is the core motivation here. We want to be a consistent and reliable project with long-term benefits for the Community. If you, BUNNIES, are with us, *we are determined to go beyond the moon!*

Phase 1

1 - Art is Everything.
Measures have been taken to ensure the quality of all *5555 NFTs* is up to standard, challenging the most successful NFT projects in the space.

2 - Building Community.

To pursue every goal, we will first take our time *to build a solid community*. Then, to ensure that the Community can claim actual ownership of the project, we aim to create Community Voting on all significant decisions. As soon as the sale is over, we will set up a voting platform that will enable our holders to vote and give the project a direction led by the Community.

3 - 3D Bunny Punks Minting.

The distribution will begin with our highly anticipated *OG mint*; after that will be another *VIP* selling stage. After Whitelist sells, 3D bunny punks will be unveiled in full glory. 3DBP NFTs will be available for secondary transactions.

4 - Raffles, Giveaways, and Fun Initiatives.
The team believes in giving back to the Community, so Raffles, Giveaways and fun Initiatives will be held for holders. Rewards might range from free NFTs to crypto and more. Also, holders can access our merchandise and bunny defender -comic book.

Phase 2

5 - Bunny Defender: The Comic.
We introduce Defender and the story behind the future game.

6 - $BUNNY Token and STAKING.
$BUNNY is a utility token with a unique buyback-and-burn mechanism and multiple utilities related to the 3D Bunny Punks NFT collection. It will be available when 70% of the collection is Sold Out.

7 - Helping Rabbit Rescue Centers, Orphanages, Care-homes and Planting Trees. We'll be giving back to the world, and we'll help people in need.

Phase 3

8 - Ready for the Metaverse.
After 80% of selling out, we plan to buy land in the Metaverse to build our *digital member space* so only holders can access it.

9 - Bunny Defender: The Game.
Powered By- *Unreal Engine 5*
After 90% of the sales, we will build a highly expected Play to Earn game powered by Unreal Engine 5. It will be playable by mid- 2023. Welcome to *Cyberpunk City*!

10 - 3D Bunny Punks Experience.
When the collection sells out, a select number of 3D Bunny Punks community members will meet in the UK for *gatherings and summits*, combining real-life experiences with digital ownership.

MEET THE TEAM

SARA - Founder. London-based investor, she provides her knowledge in Cryptocurrencies and direction to ensure this project will succeed.

CHICMIC: Digital Artists Team ChicMic are 3D experts whose goal is to create flawless visualizations with meticulous attention to detail. They are always trying to push the boundaries of

what is possible aesthetically and the quality of their artwork. They are primarily responsible for bringing forward creative and appealing art while maintaining quality. They have worked in close partnership, providing rendering services to companies like Microsoft and Samsung.

Wahab – Leader Developer Blockchain expert Wahab is familiar with well-made NFT projects. His knowledge of blockchain technology and deep understanding of Defi systems assists the project in reaching its full potential. He strives to ensure that blockchain activities function smoothly and securely, including crypto exchanges (P2P, CEX & DEX), blockchain forks, tokens creation (ERC-20, ERC721 NFT), ICO, Defi, also by using Solidity and Rust; he has developed Dapps, smart contracts, and NFTs on Ethereum, Solana, and Immutable x (IMX) Blockchain.

Sparrow- Project Manager. A very cool guy who believes in NFT with passion. He is pursuing higher studies in international relations. As a future diplomat, networking has been a big part of his life. He likes new challenges and meeting new people. He's driven to do long-term cooperation that brings value. His skillful acumen and unique strategy have significantly contributed to various well-known projects. Curiosity, strength and frankness have been important parameters for Mr. Sparrow.

Ray– Head of Community Management Ensuring the 3D Bunny Punks Community is thriving and productive is of grave importance to the 3D Bunny Punks team. That is why we have acquired an expert in community management to nurture the 3D Bunny Punks into a community where our holders can be proud of us.

Conclusion

Now that you have been informed on what 3D Bunny Punks is all about, the only thing left to do for you is to become an active member of the 3D Bunny Punks Community - on Discord, Twitter and Instagram - and purchase your exclusive NFT. *Good luck to you all!*
